

How to Make Money In 20 Minutes Online Without Any Money

Thank you for taking the time to watch this short video. This report is deliberately short so that you can quickly digest it and put it into action. I didn't add a lot of fluff, because I know that the reason you accessed this video is because you are probably in a hurry to make some desperately needed money fast. you need to make a lot of money fast. So my goal for this video is to show you that it really is possible to make money online in as little as 20 minutes, even if you have no list, no money and no experience. so start your clock right now!

I coach a lot of people online on how to build their business up with little or nothing to start with. And almost every day, somebody asks me if it's possible to make money online even if they have internet knowledge.

And I'm always happy to tell them YES!

But that doesn't mean I ever guarantee that a certain amount of money will be made. You know... anyone who guarantees that is simply being dishonest. And that's because, even people like me have big money days and smaller money days. I have days when I make thousands of dollars in a day. Other days I might make \$100 or even less. But what I wanted to show you in this video is give you a flat out simple plan to follow, where no matter if you have a list, or a product or skills or NOT, you still can make some money.

Now, basically in this plan I'm going to cut out the learning curve and I'm also cutting a lot of corners. So, keep in mind that even though this is a quick way to make money online, if you plan to make money online for the long term, you'll want to expand your business model.

Another thing I want to make clear is that as with anything worth while, you need to be consistent if you really want financial victory.

And one last thing before I go any further, if you do nothing, you'll earn nothing. so when all is said and done, your success or failure is completely up to you. If this doesn't work for you, it's because you didn't work it. Plain and simple. I hope you can appreciate my honesty here.

Ok, so let's get started. Like I said, this is a really short video, and it's designed that way so that you can get things going quickly. Bottom line... I know that's all you're interested in anyway, so I'm not going to talk about myself, my dog, my hobbies or anything like that. Right now... it's all about you and getting you going.

Ok, so here we go.

The very first thing anybody needs in order to make money is something to sell. Fortunately, you don't have to worry about that because that is all ready taken care of for you.

And the second thing everybody needs in order to make money online is someone to sell it to. And fortunately, I've got that covered for you to.

Now, whether you have a product already or not, you absolutely need one that is proven to convert really well. In other words, the product needs to already have offered to the market, and people have actually taken the offer.

When it comes to making easy conversions, the #1 best way to get products to convert is to match the product to the market so that it is relevant. And the 2nd best way is to offer a product that has mass appeal.

Think about that for just a minute. If your product is lemonade, the first thing you want to do is find a group of people who are thirsty. The 2nd thing you'd look for is a situation where the thirsty people are really hot and want something cold right now! That's what I mean by matching product to market with mass appeal. Obviously, that just makes sense. But it always surprises me how many people fail to match product to market and fail to target the mass appeal market.

The reason lemonade will sell well at a crowded hot beach on a sunny day is because that is where the market is congregating. And lemonade is specifically targeted for that market.

So, in order to make money online, we need something that appeals to a big group. The fastest and easiest way to find a good product like that is to find an affiliate product to sell. And that's the easiest way because all of the hard work has already been done for us. The product is already created. The marketing materials are already made. We don't need to worry about shipping or delivering products, and we don't need to worry about collecting payments or customer service. All we do is just market it and get paid. And usually, the commission is between 50-75%.

Clickbank, Paydotcom and Click2Sell all have quite a few good products which convert really well. And with Click2Sell, your affiliate link stays cooked on the visitors browser for as long as 6 months. That means that even if the visitor doesn't buy it today, they can come back sometime during the next 6 months to

buy and YOU are the one who gets paid - even if someone else referred them later.

To start with Click2Sell, just go to: <http://rebelmoney.join.click2sell.eu> and pick a username and password to set up your affiliate account. You will need a Paypal account so that they can send your earnings. If you don't have a Paypal account, you can get one for free at; paypal.com. The sign up button is at the very top. You'll need to link your Paypal account to your bank account so that you make instantly deposit your earnings right into your bank.

Once you've done that, then go ahead and login to your affiliate account at Click2Sell.

So far, you've probably spent 4 minutes and now that you have your affiliate account all set up, let me show you 2 products.

1st link <http://XXXXXXXX.rebelmoneyreb1.click2sell.eu>

2nd link <http://xxxx.rebelmoneyvir1.click2sell.eu>

3d link <http://XXXXXXXX.rebelmoneyyear.click2sell.eu>

Now as you can see, all of both of products are closely related to each other. They are both twitter products. And not only that, but the first two of these products allow you to get paid more than just one time on autopilot. and the 3rd product pays you 100% commission! That's right, you get to keep it all!

So just to make sure you are clear on this, when you promote these products, you get more than once on the 1st 2 products and you get paid 100% commission on the 3rd. This way you are maximizing your commission, no matter which one you choose.

And this is important because normally, most affiliate products only pay one time, and that's all you get. But these products here, are different, and allow you to maximize your profits.

The first product is a webinar which makes it very unique because you're promoting an event, rather than just a sales page. And the way it's set up, it is much more profitable than other affiliate offers because here's what happens....

1st... the prospect is offered an initial front end product and you get 50% of \$27.

2nd. the prospect is offered a 0tO and you get 50% of \$67.

3rd, the next day the prospect attends a webinar. If they buy the product from the webinar presentation, you get 50% of \$197.

4th, then they are offered a one time upsell and you get 50% of \$67

1st... the prospect watches a short but very high converting video, and then is offered some very powerful software \$27 you get 50%

Then the prospect is offered an upsell which is also converts well and you get 50% of \$67.

So both of these products are strongly related to twitter, so naturally, you automatically have millions of people to sell to.... everyone on twitter. in 2009 there were over 55 million twitter users. How many of those uses do you think might want to earn money online with a tool they are already using? I can tell you that is a hot market on twitter.

So here's the game plan...

Pick an affiliate link from one of the products I've shown you here in this video..

Go to <http://bit.ly> and shorten your Click2Sell affiliate URL from the product.

Paste your affiliate link into the bit.ly URL shorting tool click the 'shorten' button.

And save this URL someplace because it's the URL you will always place in twitter and other places when you are promoting.

OK so now that you have a hot product to sell, we need to talk about who you are going to sell it to... And naturally, that's the people on Twitter.

If you already have a big list of twitter followers, you can instantly go ahead and start promoting to them. Here are some sample tweets you can use...

WOW! Free Webinar Shows How To Make up to \$10,000 per Month

With Twitter - (your affiliate link)

- Have you seen this twitter cash secret yet, (insert your affiliate link) if not, you really need to

- @suziphillips is holding a free webinar on how to make money online with twitter (your affiliate link)

- RT @suziphillips - Join me for free training on how to make money with twitter (your affiliate link)

- Just registered for some free training on how to make money online (your affiliate link)

and product 2

- New system for getting TONS of free twitter traffic to your website (your affiliate link)

- Just finished watching this FREE video by @suziphillips on how to get free website traffic
- Just learned how @suziphillips gets up to 739 extra free visitors to her website every day (your affiliate link)
- Watching an interesting video that EVERY website owner needs to watch! (you affiliate link)
- RT@suziphillips - I got 739 extra free visitors to my site in one day, Here's how (your affiliate link)
- I Just learned how to get more free website traffic from twitter (your affiliate link)

And if you don't have any followers on twitter yet, that's ok because there is an easy way to promote these items on twitter>

Just go to search.twitter.com, type in the following phrases: make money online, make money with twitter, get more website traffic, use twitter to get more website traffic.

Once you find people who are talking about this topic, you simply reply to their message with one of the ready made messages I've given you.

Now... here's a tip> when you are searching, , be sure to type it in like “making money online –http –www.” when you use the minus before and after the http, you are refining your search to take out the people who are adverting website links. Don’t use the word minus, use the symbol.

Say something like, 'if you're still looking to make money online, this might help (insert your bit.ly link)

Ok,

So by now you've created an affiliate account at click2sell.

- you've picked up an affiliate link to a product
- you've shortend your affiliate link using bit.ly
- and you've set up your twitter account

If you want to promote the first product then here are some sample phrases that you might want to search for (you can type these into the twitter search function EXACTLY as shown and/or come up with your own phrases to search for. A good idea is to add “-www –http” at the end of each phrase!

- I hate my job
- tired of my job
- need a new job
- I need help finding a new job
- make money with twitter
- make money online
- make money quick
- I need to know how to make money fast
- easy ways to make money

If you want to promote the 2nd product then here are some sample phrases that you might want to search for (you can type these into the twitter search function EXACTLY as shown and/or come up with your own phrases to search for. A good idea is to add “-www –http” at the end of each phrase!

- get targeted traffic
- driving traffic with twitter
- get traffic using twitter
- more website visitors
- website traffic visitors
- website traffic hits
- free website traffic
- increase traffic to my website

And here's another trick to help you find exactly what people are searching for online. Go to google keyword suggestion tool. Type in some of the phrases I've given you, one phrase per line, click get keywords button.

It will generate hundreds of keywords/phrases that people are searching for You can put just one phrase into the twitter search function and then spend 30 minutes sending replies to those people who have posted something that looks promising.

And as soon as you find someone who looks like they could be interested, just click the reply button on their tweet and copy and past the pre-written message.

So let's pretend you put the phrase 'make money with twitter –www -http" into the search bar.

On any of the tweets that come up just reply to their post with a message like ...

Hey, If you're still looking for more website traffic, this might help ?

<http://bit.ly/yourlink>

So if I found 100 people who are interested in earning money with twitter, I can just keep copying this message over and over. I can reach 100 people in about 10-15 minutes. I can reach 200 people in 20-30 minutes. If copy and pasting a short message for 20 minutes means making potential income for you, wouldn't you do it?

So now you've got everything you need. You have a hot product, a hot market and plenty of people to sell to. And if you are a mover and a shaker like me, then you've probably already posted your fist message out there on twitter with your affiliate link. And chances are, you could start getting affiliate sales in no time flat.

Now, there is one more secret to this plan I want to give you and that's - automation.

That's right, there is a tool out there that will search twitter for you... it's actually a real time targeted marketing engine that will find people talking on twitter now by your chosen topic, allowing you to really hit your target mid conversation with ease. It will periodically search twitter for you and either auto-reply or generate a list of matches for you to respond to or reject from your twithawk account.

This is how simple it works...

You choose what keyword phrases you want to target. You reply to that message that you want automatically sent (you can even have more than one).

You chose your budget - it's about 2 cents to 5 cents per auto tweet.

So, if you spent \$10 a day with twithawk and 200 messages get tweeted between you and twithawk, and if you only get a 3% conversion of those 200, that's \$81.00.

You're trading \$10 for \$81.

Not bad. And how many times per day are you willing to make that trade?

So just think about that for a minute.... , you could do this for an hour a day and make about \$5000 profit every month working just an hour a day.

Now, that is assuming they don't buy anything else. But remember, these products are designed to earn you commission more than one time per customer. So the reality of this model is, an hour a day could actually translate into as much as \$10,000 a month.

Now, hopefully, this all makes sense for you and you're starting to see how powerful this model is, and you can even see how quickly you can start making money in as little as 20 minutes from right now even if you have no money or experience.

Anyway, I kept this short for you so you'd have time to go ahead and start doing what I've taught you how to do.

I hope you found this tutorial helpful and I hope this was simple enough for you to start and take action right now. Enjoy your profits and have a beautiful day!
